/***   Program to Reverse a Given Number   ***/

```c
#include <stdio.h>

main()
{
    long n;
    int rev;

    printf("\nEnter any number: ");
    scanf("%ld", &n);
    printf("\nReverse no. is:\n\n");

    while (n > 0)
    {
        rev = n % 10;
        n = n / 10;
        printf("%d", rev);
    }
    getch();

}
```
