/****   Program to Find Sum and Average of Three Real Numbers   ****/

```c
#include <stdio.h>

main()
{
    float a, b, c, sum, avg;

    printf("\nEnter value of three numbers: ");
    scanf("%f %f %f", &a, &b, &c);

    sum = a + b + c;
    avg = sum / 3;

    printf("\nSum = %.2f", sum);
    printf("\nAverage = %.2f", avg);
    getch();
}
```
