```c
/***     Program to Find Length of a String using strlen()     ***/

#include <stdio.h>
#include <string.h>

main()
{
    char s1[20];
    int len;

    printf("\nEnter any string: ");
    gets(s1);

    len = strlen(s1);

    printf("\nLength of string: %d", len);
    getch();
}
```
